BOARD CODE OF CONDUCT AND SCHOOL CODES OF CONDUCT

1. PURPOSE

The director of education is committed to the establishment and maintenance of a positive learning and working environment throughout Hastings and Prince Edward District School Board. The board and school codes of conduct are one and the same and are intended to foster a climate of mutual respect that recognizes the dignity and worth of every member of the district community. The board and school Code of Conduct are intended to promote secure surroundings in which all members are safe, and feel safe.

2. APPLICATION

Administrative Procedure 145 applies to students whether they are on school property, on school buses, or at school-authorized events. It applies to all staff members wherever they are performing work or attending work-related functions at schools, board offices or facilities. The procedure applies to parents or guardians, volunteers and other school visitors on school property or at school-authorized events or activities. All of these members of the education community have a responsibility to contribute to a positive climate.

The school environment is both physical and social. It includes the school building, its surroundings, the people in it and the way they interact, the material resources and the extensions of this environment that are necessary for the delivery of the program and extracurricular activities.

The school environment must be welcoming to everyone learning and working in it. Actions that threaten the school environment, such as intimidation or distribution of hate literature, must be addressed by schools and the district to avoid creating a climate of fear and further violence.

System and school administrators are committed to providing safe, effective and respectful learning and working environments.

3. REVIEW CYCLE

The board Code of Conduct, including the standards of behaviour, will be reviewed at least every three years and will include input from the staff, school councils, and students.
